Subject Index to Volume 5—1983

AH-26, and pigmentation of oral mucosa, 3:25
APF topical fluoride gel-tray treatment, 4:3

Baking soda, abrasivity of, 1:17, 6:21
Barkley, Robert F., 5:20
Basing material, effects on composite resins, 2:9
Bone cyst of the maxilla, 1:11
Book reviews, 2:30; 4:18; 4:31; 5:7, 14
Britain, dental services in, 2:13

Cancer, oral
  diagnosis of, 6:23
  psychological aspects, 1:21
  x-rays and, risk of (letters), 4:28
Caries
  APF fluoride treatment, 4:3
  and fruits and vegetables, 6:3
  and iron deficiency, 2:3
  and pit and fissure sealants, 2:28
  psychological aspect of, 1:21
Case in Point
  facial pain, and diagnosis, 1:13
  laminate veneers, individualized, 4:19
  lingual arch space maintenance, 5:22
  lipoma, mandibular, 1:13
Chewing sticks, and oral hygiene, 4:11
Children
  alcohol poisoning through mouthwash, 3:14
  periodontal disease in, 3:17
Chronic orofacial pain, psychological aspects of, 1:21
Clinical Update
  Oral Radiographic Manifestations of Systemic Disease
    bone disorders, 4:22
    endocrinopathies, reticuloendothelioses, and hemolytic anemias, 5:26
    syndromes, malignancies, and miscellaneous disorders, 6:23
  Removable Partial Denture, VI, 1:29
Composite resins and basing material, 2:9
Copper bands, and castings, 1:19

Dental aerosols, pathogens in, 6:17
Dental program compliance, 1:3
Dentin
  dysplasia, 3:21
  and endodontia, 4:15
Dentofacial anomalies, psychological aspects of, 1:21
Dentures, removable partial, 1:29
Digital toothbrush, 2:6
"Disquieted cracked-root syndrome," 4:15
Distobuccal root, canal anatomy, 5:24

Edentulism, psychological aspects of, 1:21
Elastomerics, for castings, 1:19
Electric toothbrush, 5:15
Enamel-bonded prosthesis (letter), 1:16
Enamel
  and abrasivity of sodium bicarbonate, 1:17; 6:21
  effect of fruit juices on, 6:3
  effects of reaction products on, 3:6

Endodontia
  "disquieted cracked-root syndrome," 4:15
  retreatment, 5:8, 24
  versus pulp capping, 2:25

Fluoride
  and chewing sticks, 4:11
  effect on enamel, 3:6
  and prior tooth cleaning, 4:3, 8

Gingival Bleeding Time Index, 3:17
Gingivitis, effect of Listerine Antiseptic®, 6:12
Guest editorial: Clinical Licensure Examinations, 3:3

"Helping relationship," between dentist and patient, 5:20

Indirect inlay impression casting, 1:19
Iron deficiency, and caries, 2:3

Jaw, bone cyst of, 1:11

Laminate veneers, individualized, 4:19
Letters to the Editor
  enamel-bonded prosthesis, 1:16
  epidermoid carcinoma of the oral cavity, 4:28
  Sargenti N2 root canal method, 4:27
Licensure examinations, clinical, 3:3
Lingual arch appliance, space maintenance, 5:22
Lipoma, mandibular, diagnosis of, 1:13
Listerine Antiseptic®, effect on plaque and gingivitis, 6:12

Mandibular lipoma, diagnosis of, 1:13
Maxilla, bone cyst in, 1:11
Molar, maxillary, 2:22; 5:24
Mouthwash
  alcohol poisoning of children, 3:14
  effect on pathogens, in dental aerosols, 6:17
  Listerine Antiseptic®, 6:12

N2 treatment, Sargenti method (letters), 4:27

Omnii cleaner, evolution of, 1:8
Oral cancer. *See* Cancer, oral
Oral mucosa, pigmentation of, 3:25

Partial denture, removable, 1:29
Pathogens, in dental aerosols, 6:17
Patient compliance with dental programs, 1:3
Perceptuomotor difficulties, and oral hygiene, 2:6
Periodontal disease, 1:21; 3:17
Pit and fissure sealants, 2:28
Plaque
  control program, 1:3
  effect of Listerine Antiseptic®, 6:12
Product news, 2:12; 3:30
Prosthesis, enamel-bonded (letter), 1:16
Psychological aspects of oral conditions, 1:21
Pulp capping, 2:25
